INTRODUCTION

Embark on a ground breaking journey with our "Sinus Augmentation Mastery" course, curated by leading professors in implant dentistry armed with the latest scientific evidence.

Tailored for both novice and experienced practitioners, this immersive experience integrates cutting-edge research into practical skills. Engage in hands-on sessions, applying evidence-based approaches to sinus elevation, encompassing lateral and crestal techniques.

Stay at the forefront of implantology, whether you're initiating your journey or enhancing existing skills in sinus lift surgery. Don't miss this opportunity to merge theory with practice under the guidance of true industry leaders.

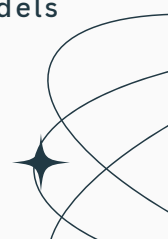

COURSE AIM

In this course we delve into:

1. Strategic diagnosis and treatment planning for the posterior maxilla.
2. Surgical methodologies and biomaterials for augmenting in the maxillary sinus.
3. Evaluation and treatment planning for patients with missing maxillary posterior teeth.

Expect comprehensive and evidence based hands-on learning with demonstrations showcasing surgical grafting techniques on the maxillary sinus, featuring both models and patient surgeries videos.

LEARNING OUTCOMES

Upon completing the course, attendees will gain a comprehensive understanding and proficiency in:

1. Engaging in discussions and articulating various approaches to sinus augmentation.
2. Grasping the surgical anatomy associated with sinus grafting.
3. Conducting assessments of patients eligible for sinus grafting.
4. Distinguishing between lateral window and transcrestal sinus grafting, and discerning when to apply each technique.
5. Acquiring a practical knowledge of the equipment essential for sinus grafting procedures.
6. Familiarity with various grafting materials and techniques available.
7. Developing an understanding of Cone Beam Computed Tomography(CBCT) in the context of sinus grafting.
8. Recognizing common peri and post-operative complications in sinus grafting.

PROGRAMME

Day 1 – Friday May 31, 2024

08:20

Participant registration

08:30 – 10:30

Introduction to maxillary sinus anatomy and sinus lift procedures
(Dr Oscar Dadashian)

10:30 – 11:00

Coffee break

11:00 – 13:00

Evidence for maxillary sinus elevation (Prof Marco Esposito)

13:00 - 14:00

Lunch time

14:00 – 15:00

Biomaterials in sinus lift procedures (Prof Marco Esposito)

15:00 – 18:00

Hands-on models for the lateral approach (Piezoelectric
technique)

Coffee station will be provided in the afternoon session

20:00 – 23:00

Dinner kindly offered by Technoss

PROGRAMME

Day 2 – Saturday June 1, 2024

09:00 - 10:30

Anatomy and physiology of the maxillary sinus
(Prof Tiziano Testori)

10:30 – 11:00

Coffee break

11:00 – 12:00

Pre-surgical diagnosis (Prof Tiziano Testori)

12:00 – 13:00

Step-by-step surgical procedures for the lateral approach
(Prof Tiziano Testori)

13:00 to 14:00

Lunch time

14:00 – 15:00

Step-by-step surgical procedures for the crestal approach
(Prof Tiziano Testori)

15:00 – 17:30

Prevention and treatment of post-operative infections after
maxillary sinus elevation surgery (Prof Tiziano Testori)

Coffee station will be provided in the afternoon session

ADDITIONAL ADVANTAGES

**As part of our commitment to
your learning experience:**

Tecnoss - OsteoBiol extends a
generous offer to each participant.

You will receive complimentary graft
materials, valued at approximately
€1,000.00 for the 2-day course, further
enhancing the value of your participation.

SPEAKERS

PROF. MARCO ESPOSITO

Prof Esposito holds the esteemed position of Associate Professor in Research Methods and Evidence-based Medicine at the Vita-Salute San Raffaele University of Milan.

His scholarly prowess extends globally, serving as a Docent in Biomaterials with the Sahlgrenska Academy at Göteborg University and assuming the pivotal role of Sign-off Editor for the Cochrane Collaboration. His academic journey is adorned with honors, having graduated with distinction in dentistry from the University of Pavia, followed by the accolade of a PhD in Biomaterials from Göteborg University. His specialized expertise in Periodontics (UK) further underscores his standing in the field.

A trailblazer in dental education, Prof Esposito manifested visionary leadership by creating and directing the acclaimed Postgraduate Dental Specialties courses in Dental Implantology at the University of Manchester (2006-2011). His editorial prowess shines through his stewardship of prestigious publications such as the European Journal of Oral Implantology (2007-2018) and Clinical Trials in Dentistry (2019-2023), showcasing his commitment to advancing dental knowledge.

Prof Esposito's intellectual footprint spans over 300 publications in international peer-reviewed journals and influential book chapters. His erudition is not confined to the written word; he has imparted knowledge through more than 700 captivating lectures and courses at both national and international levels.

SPEAKERS

PROF. TIZIANO TESTORI

Prof Testori graduated with honors in Medicine and Surgery (M.D.) from the University of Milan in 1981, he earned the Specialty in Dentistry (D.D.S.) in 1984 and a Specialty in Orthodontics (M.S.C.) in 1986. Driven by a commitment to learning, he pursued fellowships at esteemed institutions, including Loma Linda University in 1997 and the University of Miami in 2000. Holding titles of Associate and Full Professor, he served as President of SICOI (2007-2008) and IAO (2017-2018).

Prof Testori's multifaceted role includes serving as Vice-chair of AO Global Program Development Committee and Section Editor for the "International Journal of Oral Implantology." Actively involved in dental research, he is a referee for commissions such as the Cochrane Collaboration for the Oral Health Group. As Head of Implant Dentistry at IRCCS Galeazzi Hospital, Milan, and Adjunct Clinical Associate Professor at the University of Michigan, his impact extends globally. Prof Testori, a respected authority, shares his expertise through lectures worldwide, solidifying his reputation. Currently, as Director of the "Master in Oral Implantology" at IRCCS Galeazzi Institute and the University of Milan, he exemplifies leadership in advancing dental education.

SPEAKERS

DR OSCAR DADASHIAN

Dr. Oscar Dadashian earned his Doctor of Dental Surgery (DDS) degree from the prestigious Karolinska Institute in Stockholm, Sweden, in the year 2000, marking the beginning of his journey in the field of dentistry. His formal training in implant dentistry commenced at the renowned Eastman Dental Institute in Restorative Dentistry.

Building upon this foundation, he furthered his expertise by enrolling in a comprehensive two- year Diploma course in Implant Dentistry at The Royal College of Surgeons. Demonstrating a commitment to continuous learning and academic excellence, he dedicated an additional year to focused study and research, culminating in the attainment of his Master of Science Degree in Dental Implantology.

Currently, Dr. Dadashian serves as a tutor, supervisor, and examiner for the Master of Science degree in dental implantology at King Juan Carlos University in Madrid.

In this capacity, he plays a pivotal role in shaping the next generation of implant dentistry professionals, imparting knowledge and skills essential for success in this specialized field. Driven by a passion for education and a commitment to advancing the practice of dental implantology, Dr. Dadashian is actively involved in training and mentoring other dentists. His hands-on approach and wealth of experience make him a sought-after resource for dental professionals seeking to enhance their skills and proficiency in implant dentistry.

ADDITIONAL INFORMATION

COURSE DATE

Friday 31st May - Saturday 1st June 2024

COURSE FEE

The enrollment cost for this comprehensive 2-day course is £2,750.00. This fee covers lunches, coffee break snacks, refreshments, and a dinner on the first evening, graciously provided by Technoss. Additionally, participants will benefit from complimentary graft materials, valued at half the theoretical course cost, equivalent to £1,000.00 for the 2-day course, courtesy of OsteoBiol.

Excluded from the fee are your airfare, transportation, and lodging expenses.

LAKE COMO INSTITUTE

Welcome to Lake Como Institute, founded by Prof. Tiziano Testori, where a commitment to study meets clinical-scientific research, creating a rich learning environment with an interdisciplinary focus. Our courses empower you to deliver professional and comprehensive dental care to your patients. We prioritize clinical excellence through meticulously designed protocols and a keen attention to detail—two essential elements for achieving enduring results. Join us at Lake Como Institute and elevate your dental practice with a blend of academic rigor and practical proficiency.

LOCATION

LAKE COMO

Nestled in the Lombardy region of Northern Italy, Lake Como is a sophisticated resort destination celebrated for its breathtaking landscapes, framed by the majestic foothills of the Alps. The lake itself boasts a distinctive upside-down Y shape, featuring three elegant branches converging at the charming resort town of Bellagio. Gracing the shores of the southwest branch is the city of Como, renowned for its Renaissance architecture and offering access to the mountain town of Brunate via a scenic funicular journey. Lake Como captivates with its picturesque allure and serves as a gateway to cultural and natural wonders in the heart of Italy.

NEXT STAGE

SINUS AUGMENTATION MASTERY - PART II

FURTHER COURSE

SINUS AUGMENTATION MASTERY - PART II

Successfully completing this course qualifies you for a 2-day hands-on supervised surgical sinus lift workshop in Tirana, Albania. This opportunity allows you to enhance your skills through practical experience on a live patient under supervision.

Candidates who successfully complete both components will be eligible to participate in the mentoring program offered in the UK.
